

little bites and bigger bites products from Kinderville are made from bacteria-resistant, durable, BPA-, phthalate- and lead-free, non-leaching silicone that is safe for freezer, refrigerator, microwave and dishwasher.

For their top-notch design, functionality, and high relevance in the world of safer children's products, we're naming Kinderville's Little Bites Storage Containers and Little Bites Bowls ZRecs Top Picks. We love and highly recommend both of these products.
